IMPORTANT – TENT HELPFUL HINTS

Thank you for purchasing a quality OZtrail product, if you have any questions your OZtrail dealer will be happy to help you or contact us via www.oztrail.com.au

- This product is designed as a portable and temporary dwelling and is not for permanent use.
- Avoid continuous exposure to sunlight as this will eventually cause the polyester to weaken, fading is an early warning sign of this process .
- Before storing the tent ensure the tent is clean and completely dry. Never store a damp or wet tent.
- Do not leave this product unattended if bad weather is expected. If assembly instructions are followed correctly, this product will withstand mild winds and rain. In gusty winds and storms you must collapse the tent/shelter
- Your new OZtrail purchase is a valuable asset and we recommend you discuss with an appropriate insurance company to include this product with your insurance policy

CAMP SAFE - SAFETY HABITS

To prevent injury caused by gas poisoning or suffocation -

- Do not use fuel burning, oxygen consuming devices inside the tent. This includes candles, gas lanterns, kerosene lamps, stoves, cooking and heating appliances.
- Do not use gas appliances of any kind inside the tent.

To prevent injury caused by fire -

- The fabric may burn if it comes into contact with a flame source
- Do not pitch the tent near a camp fire or any other flame source
- Do not use candles, matches or any other flame source in or near the tent (this includes stoves, cooking equipment, lighting and heating appliances)
- Only use recommended water repellent compounds on the tent
- Do not spray tent fabrics with insecticides

To prevent injury caused by electricity -

- Always exercise care when using electricity and electric lighting in and near tent. Only use 12 volt lighting.

To prevent injury caused by your camping environment -

- Do not pitch your tent on an area that could get flooded

- Do not pitch your tent near cliffs in case of collapse or rock fall

- Do not leave your tent erected in strong winds - collapse the tent onto the ground and seek refuge in your vehicle

- Do not pitch your tent under trees with dead branches or under trees known to drop branches

MATERIALS-

Tent – No-See-Um Mesh

Floor – PE

CARE INSTRUCTIONS –

Wipe down all surfaces with fresh water after use. To remove marks, use a soft brush or sponge with fresh water and mild detergent only and rinse with fresh clean water. Allow to dry thoroughly. Never pack away damp, dirty or wet. After beach use or wet conditions treat all zips and metal components with silicon spray.
